Figure 1: MADE teacher/student configuration

MADE

Teaching model

Design model

Problem
- Project task
- Teaching/learning goals
- Course content
- Project plan
- Design objectives

Work process
- Stage by stage teaching, learning and design process with feedback (including checks on learning goals and design objectives)

Result
- Learning result
- Design result

Teaching and learning methods, materials and media
- Project method as a framework for teaching and learning situations

Design methods, materials and media
- MADE Process Plan
- System-orientated thought
- Function-orientated viewing
